

ZenMoxi — Intelligent Moxibustion Robot

Bringing ancient moxibustion into modern intelligence,
caring for your health every day!

About
iRelaxBot

iRelaxBot is a leading U.S.-based intelligent health technology company dedicated to providing advanced technological solutions for global users. With strong R&D capabilities and years of industry experience, our products are FDA-certified and backed by U.S. product liability insurance, ensuring peace of mind. Our offerings include intelligent therapy robots for home and commercial applications, tailored to modern health and beauty needs.

Product
Introduction

Moxibustion, a healing practice rooted in thousands of years of Chinese wisdom, uses the warmth of burning mugwort to activate the body's self-healing power. By harmonizing meridians and stimulating acupuncture points, it expels cold and dampness, invigorates energy, balances yin and yang, and restores health and vitality. This ancient therapy now integrates with modern technology, bringing natural energy into daily life for deep healing and tranquility. ZenMoxi combines traditional moxibustion with modern AI technology, featuring high-precision AI algorithms for accurate therapy and personalized adjustments. It's ideal for a variety of settings, including homes, medical institutions, beauty salons, and health centers.

Rediscover the wisdom and charm of ancient moxibustion with ZenMoxi—your intelligent health partner!

Core Features and Functions

01 Intelligent Precision Therapy

- Built-in AI algorithms automatically detect body curves and acupuncture points, ensuring accurate moxibustion.
- Supports customizable therapy plans to meet personalized health needs.

02 Five Traditional Moxibustion Modes

Warm moxibustion, retaining moxibustion, meridian moxibustion, circular moxibustion, and smokeless moxibustion—preserving classic methods.

03 Environmental Optimization Technology

- Built-in smoke and dust filtration system effectively removes smoke, maintaining fresh air.
- Intelligent odor removal eliminates moxibustion smells, creating a comfortable environment.

04 Comprehensive Safety Features

- Temperature monitoring and overheating protection to prevent burns.
- Magnetic collision protection ensures reliable safety.

05 User-Friendly Operation

- Voice guidance and assisted positioning for effortless use.
- Remote control functionality allows easy management of the device.

Moxibustion Robot

Traditional Manual Moxibustion

Feature	ZenMoxi Intelligent Moxibustion Robot	Traditional Manual Moxibustion
Precision	AI-accurate acupoint detection, effective	Relies on manual experience, less precise
Safety	Temperature monitoring and multi-layer protection to prevent burns	Higher risk of burns and improper operation
Efficiency	Fully automated operation, time-saving	Manual operation, time-consuming
Environment	Built-in smoke and dust filtration, clean air	More smoke, affects indoor air quality
Ease of Use	Voice guidance and remote control for easy use	Manual adjustment, steep learning curve

Applications

Home Health Management

Address sub-health issues and boost immunity

Traditional Chinese Medicine Centers

Provide efficient therapy services with TCM concepts

SPAs and Beauty Salons

Relieve fatigue and enhance client satisfaction.

Rehabilitation and Health Centers

Support post-surgery recovery and chronic pain management

Prenatal Care

Assist postpartum recovery and physical conditioning.
